# Oilseeds: World Markets and Trade

## Rising Soybean Imports Reflect Changing Market Dynamics in Russia

Russia's soybean imports have grown sharply over the past five years supported by rising demand, primarily from the poultry sector, and policies encouraging expansion in soybean crush capacity. Russia's poultry production has doubled over the past five years and is currently forecast to grow 10 percent next year, steadily stimulating demand for soybean meal. A five percent temporary import duty on soy meal, which is set to expire at the end of this month, has strengthened demand for imported soybeans. Consumption of soybean meal should remain strong in 2010 although abundant feed grains could limit the extent of growth.

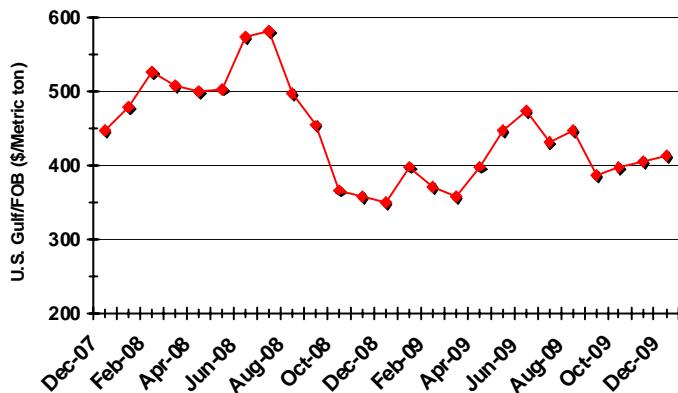

Russia primarily buys Brazilian soybeans because of a preference for GM-free, and Brazil's expanding productive capacity continues to meet rising international market demand.

## **PRICES**

U.S. soybean export bids, FOB Gulf, in the first week in December averaged \$413 per ton, a steady increase from last month. Record sales, primarily destined for China, pushed export bids higher.

As of week-ending November 26, 2009, U.S. soybean sales commitments (outstanding sales plus accumulated exports) to China totaled 17.0 million tons, compared to 9.2 million a year ago. Total commitments to the world amounted to 27.8 million tons compared to 17.6 million the same period last year.

### **U.S. Gulf Soybean Export Bids**

## **TRADE CHANGES IN 2009/10**

- U.S. soybean exports are boosted 0.4 million tons to a record 36.5 million supported by record sales to date and demand in China.
- Brazil's soybean exports are down 0.2 million tons to 23.7 million in response to much smaller exports in November.
- Argentina's soybean imports are down 0.2 million tons to 0.3 million as the pass through program with Paraguay ended.
- China's soybean imports are boosted 0.5 million tons to 41.0 million in response to large sales and shipments from the U.S.
- India's palm oil imports are up 0.2 million tons to 6.6 million supported by continued strong demand.
- Canada's rapeseed exports are up 0.4 million tons to 6.2 million due mainly to large shipments seen in the early season.
- China's rapeseed imports are up 0.4 million tons to 1.1 million prompted by large imports from Canada occurred before the issue of black leg fungus.
